100227	Magnetic Probe
LD100	1" Metal Washer
100167	2 Pack Piston Return Springs

Piston Return Spring

Replacing the piston return spring maintains the power of the XT540

THE MOST POWERFUL TOOL IN ITS CLASS

The Ramset XT540 was specifically designed for the commercial framer for heavy-duty interior & exterior applications.

The XT540's combination of high power and durability make it perfect for these applications:

- Driving 1-1/4" embedment for perimeter track
- Fastening track & clips to structural steel
- Track to hard concrete
- Excellent compliment to your Ramset *TrakFast* program
