

## Flexible Conduit Support Bracket

# FCB

The Ramset<sup>®</sup> FCB (flexible conduit bracket) provides fast and easy out of the box fastening! **Quick snap to stud** feature leaves two hands free to screw into place and no tabs to bend to secure conduit! The stabilizing nub hold up to 4 cables\* and provide extra hold to secure conduit horizontally or vertically.

Self-securing tab eliminates the need to bend over tabs!

Snaps into place leaving both hands free to screw into place.

Extra hole for additional support

Folds into sturdy tab and holds up to 4 cables

Keeps conduit separated and in place

Maintains required distance from front/back of stud face per NEC 300.4D

Stabilizing nubs prevent conduit moving horizontally and vertically
